User Stories/Testing Materials: Bill is a college student dating a girl named Emily who loves brunch

1. As a customer/user Bill is trying to see the options for cheese on a cheese omelet
    - Have the user tester attempt to find the cheese options on a cheese omelet
2. As a customer/user Bill is trying to see the hours of the shadyside location on Tuesday's so he can take his girlfriend.
    - Have the user tester attempt to find the hours of the Shadyside location on tuesdays
3. As a customer/user Bill is trying to see the trip advisor reviews for the restaurant to see if it would be a good option to take his girlfriend to.
    - Have the user tester attempt to reach the trip advisor review page
4. As a customer/user Bill is upset after going to Pamela's diner with his girlfriend and wants to contact Pamela's
    - Have the user attempt to fill out and submit the contact page
5. As a customer/user Bill wants to learn about when Pamela's diner opened.
    - Have the user attempt to find the year that Pamela's diner opened.

Additional Potential Questions:
-Which task did you struggle most with?
-Any suggestions that would make these tasks easier?

Task Breakdown:

- Wireframing done by 03/20
- General layout of menu/header done by 03/21
- Start to get general layout of content done by 03/25
- Finish at least 2 pages by 03/26
- Implement Jquery Tabs by 03/27
- Implement lightbox and finish the third page by 03/29
- Finish the final page by 03/31
- Start user testing by 04/01
- Makes changes and adjustment and make sure I have all the deliverables ready on 04/01
- Turn in the project 04/02
